

October 7, 1951

Dear Howard:

Thanks for the photograph.

Since I saw you, I've picked up a W-k S^d suitable for my present needs, and will therefore not have to trouble you for same.

Any chance that Rothfels might still hand in his work on linearity of the right end in K-12 as a discussion for the CSH volume? If you see him, would you mention that I'd like to prod him on it. I'm not quite sure where to write him myself.

Sincerely,

J. Lederberg
